

Contact Registration Form

City of Naperville

Transportation, Engineering and Development (T.E.D) Business Group

You may submit a building permit application with sub-contractors still to be determined. The City of Naperville will not issue building permits until all sub-contractors have been identified on the application.

If, for any reason, you must change a subcontractor, you are responsible for notifying the City in writing. The written notification must include the project name, project address and permit number as well as the name(s) of the former and current subcontractors.
