

Tips for Applying

Residential Air Source Heat Pump Rebate Program

Naperville is offering residential electric customers a high – efficiency Air Source Heat Pump rebate program for replacement units with a minimum Seasonal Energy Efficiency Ratio (SEER) rating of 16 or greater and a Heat Seasonal Performance Factor (HSPF) of at least 8.8.

Incentives for qualifying replacement Air Source Heat Pump units:

- \$500 – 16 SEER or 15.3 SEER 2 and 8.8 HSPF
- \$600 – 18 SEER or 17.2 SEER2 and 9.0 HSPF or HSPF2 of 7.7

Please submit the following items with your application.

- Documentation must include:
 - A copy of dated, itemized, paid purchase receipt.
 - A photo of Heat Pump Outdoor unit's Model and Serial numbers.
 - AC Indoor Coil (and Furnace Model # if applicable).
 - Appropriate AHRI certificate with model #'s of new AC unit, Indoor cased coil, and Furnace this new AC unit is installed with.
<https://www.ahridirectory.org/NewSearch?programId=68&searchTypeId=3&productTypeId=3500>
 - Documentation from Manufacturer and Installer proving SEER rating of Heat Pump unit.
 - Documentation showing the cooling capacity, heating capacity, and EER rating of each unit. Tip: Customers can get this information from the AHRI certificate (www.ahridirectory.org), their vendor, or owner's manual.
 - The Heating Seasonal Performance Factor (HSPF) of the air source heat pump.
