

Tips for Applying

Residential Single Pane Window Replacement Rebate Program

Naperville is offering residential electric customers a rebate for residential single pane window replacements.

Complete applications must be submitted within 120 days of install.

- Only existing single-pane windows replaced by energy-efficient windows are eligible for the rebate.
- Awards are limited to \$250.00 per window with a maximum rebate of \$2,500, capped at 50% of total eligible project cost.

Single pane window replacement rebate requirements are:

- New windows must have a U-Value of .3 or lower (between .3 and .0).
- Windows must separate a heated space from an unheated space.
- New windows must replace a single pane window with a double or triple pane window.

Please submit the following items with your application.

- Documentation must include:
 - Detailed pictures of each existing single-pane window replaced,
 - Paid invoice from the window installer detailing how many single pane windows were replaced,
 - Documentation that new windows have a U-Value of .3 or lower,
 - A signed certification from the customer that all existing windows were single pane.
 - Homeowners must submit a description of project (for example, a quote and material list, and an invoice showing it was paid).
- Applicants must be contributors to the Naperville Renewable Energy Program that funds this award (a minimum of \$5 per month going forward), to be eligible for the grant.
 - A utility bill showing this contribution must be submitted for the application to be complete.

More information on how to sign up for the Naperville Renewable Energy Program is at:
